You'll never get nowhere  
If you're a shy boy  
You gotta realize  
That love is just a game  
If you've got it bad  
There's no turning back  
So baby best to let it show

'Cos there's just one thing  
That you gotta be  
Gotta be so strong  
So she can see  
Down and down you go  
To find what you need  
Lady take a look and see

Go go go baby go  
Go go go make it show

Do what you want  
You know she's gonna love it  
Go go go baby go  
Let all your loving flow  
Give her all your passion  
Baby baby don't you fake it

Well take her somewhere  
You can be alone now  
And then decide and say  
You need her in your life  
'Cos you say you feel  
That your love is real  
So baby best to let her know
