Ask and bring me baby bout me
Your ass on lady bout me
Some girls that they can't live without me
Broke hoes tryin to get babies out me
Niggas pout it up, so extra clean
Sweet my doll, you smell that green
Bad ass bitch long hair don't care
Look like she model from...
Ship go shopping everything
I just grab what if I want
Make sure I take care of my shit
Turn cash but never want
Boobs choose I picture up
Shoot the game we're here in the call
You should f*ck me now girl,
Don't wait too long I'ma make you stop
Riding through my crazy hood, crazy not aloud to be
Pull up on my nigga mase
He said he was probably me
If I ever caught that bitch
Nigga who merk hard bitch
Shot dog, shawty to the dawn without no talk
My nigga ain't making news 'cause he was in the
streets
Now the worse down get no fuck
By young black niggas like me
But f*ck the world I'm swing it to pay the...
Seat in this part and smoke a trigger and...
We jam it damn it

Ask a brand new baby bout me
You can ask your baby bout me

Ask a brand new baby bout me
You can ask your lady bout me
Some girls say they can't live without me
Broke hoes tryin to get bet this out me
Can't ship extra caught
Young bros extra bro
Nigga just really don't get no fuck
Money get cool but I'd rather have gold
I've been the corners to my hood,
What's your partner seven...
Flying down the hundred five,
Late if the killers be
Every bro niggs don't get no fuck
Shout out to the stars,
Partner from that red house
With little... in that blunt
Free my nigga monkey thing,
Free my nigga here I was right there
When the judge didn't gave my little state bout 38
years
And the victim's wife took the stair and explained
How she found the... and I was like damn
They said my nigga pissed the whip to pass the three
shot
Some hoe ass nigga took the stand and testified with
no problem
Years later I'm living in medical canyons
Sipping in park and smoke the... my companion that
we... yeah damn it
