[Intro: King Chip]

Yep

Dream on

Chip

[Verse 1: King Chip]

I can remember leaving in cars

Fuck the world, living is hard

Making mistakes and fixen em up

Either that or not givin' a fuck

Cause problems show up as much as your girls

Knock on the door and into my world

Hope you brought some weed my nig

Break it on down A...

Baby say we can tear up this hotel

As long as I promise to her I wont tell

Cause she be on tv reportin' the news

Never thought I'd get a load at those boobs

Sometimes you win, sometimes you lose

Unless you play no games and say fuck the rules

And do what you want

Say what you feel

I am no asshole, I am just real

Being polite that's just being fake

Hard on myself but that's bein' great

Ninety-nine times out of ten I be late

But when I show up, set up the wake

Kill't they ass, roll up more grass

Pour some more Remy up off in this glass

You having some fun, or having a blast?

Settle for less, nah I'll pass

[Hook x2: King Chip]

I'mma do what the fuck I want to

And I'mma buy what the fuck I want to

Roll up and tell them girls to come through

Only if we can do whatever I want to
