[Roscoe]

Man Pass that, what

[Chorus : Sleepy Brown]

Cuz' that's they lace (From head to toe)

Got the three will motion (Sick and so low)

Such a good feeling (and I'm so high)

I blow my smoke in the sky (Caught up against the crack)

[Verse 1: Roscoe]

Low key OG', it's Roscoe the soto

I'm blowin dodo on a low low, duckin from the popo

I'm known to hit the city traffic Grippin the millimatic for static

Catch me up all up ya' Bentley jackin'

Your stereo system drillinatics

When I'm open for the law Through it all,

We delinquents Yeah A-wall and juvi hall

With a stink cent, from chronic dogg

Through out my car, THC all through all my cigar

With a drink bent, about to vomit all over the yard

My loose spits freely roamin' the reservoir

My tooth chipped, now I spit better bars

My crew sick, persuing the stars and to shoe fits

We're not the ones to hate on a fool with on-ones

The wrong young guns to screw with

We assasins, from head to toe

Stay in tune with, ball with us, it's Russian roulette

[Chorus]

[Bridge : Sleepy Brown]

Hey, the way I feel, I like smoking

Ah hurry up showty', roll the joint

Oh work it out little mama

Let me see your ass scrub the floor

And ohh lord, the straigh henessey hit me in the spot

And ohh lord, party like it's the last day you got

[Chorus]

[Verse 2: Roscoe]

Yeah, they call me young sco' goodie

Dungeon Family, from ATL to LA all day and philly philly

See me dippin' with my Eastside thugs and my

Westside gangstas

Get with the perty mild, reppin' the dirty south

Roscoe, Keko, Rico, Sleepy and Cee-lo  
Yeah, we rollin' Geo's on the d-lo in g-mode  
Now this is what sounds like, when the g's cry  
We ease up, speed by ya, and squeeze fire  
I'm bicostal don, I'm off the wire, in all bulletproof attire  
Until the day I retire,  
Me and bro, we share two heeps and one vest  
We keep em' underneath the seat,  
So come test the young jack rabbit, with a bad habbit  
The jab rabbit, rap addict  
Ever since I first took a stab at it  
Up in the lab slash attic  
With the studio set up, and the walls padded  
Yeah  
[Chorus] - repeat 2X into fade
