There's nothing better than alone and stoned  
Listenin' to music on your headphones  
There's nothing better than alone and stoned

All of my friends are all alone and stoned  
All of my friends are on their headphones  
All of my friends are all alone and stoned

Stare at all the sh\*t in your bedroom  
And take a walk on the moon  
No one can see you when you're alone, alone

Why's everybody wanna be alone  
Why's everybody wanna stay at home  
Why's everybody wanna be alone

Stare at all the sh\*t in your bedroom  
And take a walk on the moon  
No one can see you when you're alone, alone

All of the world is all alone and stoned  
We Are The World is wearing headphones  
All of the world is all alone and stoned

Stare at all the sh\*t in your bedroom  
And take a walk on the moon  
No one can see you when you're alone

Stare at all the sh\*t in your bedroom  
And take a walk on the moon  
No one can see you when you're alone, alone

Why's everybody all alone and stoned?
