I work hard, I work hard,  
I work hard, I work hard  
Got my pockets so fat and I'm smoking on loud  
Them haters gonna hate but they can't do nothing  
about it  
It's been a long time coming and I ain't never going  
back  
But in 25 8 but it got me where I'm at, I work hard

Great into austin, shitting on all the has beens  
No magic carpet, no genie needed, word to aladdin  
Since I came up I made a lot of mad men  
And talked... stoned equipped with glass tints  
Now... shout out to those I hurted you  
Can't stop what's destined to be so smoke a blunt or  
two  
Take the initiative take know of what's in front of you  
Cause me and my crew, we win, we number one in...  
I'm living proof that dreams can become reality  
The way they talk about me, you would have thought  
there's no one bad as me  
But now that I done blew up and got poured like a  
cavity  
I'm running this shit like 4 legs and 3 cavalry  
I work hard, pay off, plus the evidence  
Fuck the game like I'm tryna have eleven kids  
Make the negative become so irrelevant, I do  
And after that the rest become so effortlessly  
Like kicks from bruce lee and there ain't no nigga out  
here do it like me  
So I'm out here tryna get it even got it overseas  
It's hard work to be awesome, but awesome I be, amen

I work hard, I work hard,  
I work hard, I work hard  
Got my pockets so fat and I'm smoking on loud  
Them haters gonna hate but they can't do nothing  
about it  
It's been a long time coming and I ain't never going  
back  
But in 25 8 but it got me where I'm at, I work hard

... you fucking 9 to 5 in that Barry... check  
I'm get my own shit, I don't need nobody else  
Hard work pays off it takes time to progress  
Life is full of ups and downs and I ain't settling for less  
Life is what you make it, you wanna go and take it  
It don't happen over night, it all started in the basement  
I work hard to be the man, and I be damned if I wasted  
... fly when I wanna spend every night faded, I do  
Those who have obtained, the lesson can do the same  
Those who haven't stick to average and active simple  
and plain  
I'm just leading by example the sample of growth and...  
So when you see me on the tv don't hate me, just do  
the same

I work hard, I work hard,  
I work hard, I work hard  
Got my pockets so... and I'm smoking on loud  
Them haters gonna hate but they can't do nothing  
about it  
It's been a long time coming and I ain't never going  
back  
But in 25 8 but it got me where I'm at, I work hard
