A lot of shits changed since the last time I saw you  
A lot hasn't  
they prolly still wishing I would fall through.  
You always told me if i ever needed just to call you.  
So here i am again to tell you everything I ought to.  
Monsoons , typhoons, hurricanes tsunamis  
all the shows , roads, planes all reminds me of you ,  
you , you , you , you.  
Of you , you , you , you , you.  
Every since i started its been me and you regardless .  
So through all the popping bottles , to all the pain and  
hardships .  
Its you , you , you , you , you . Its you , you , you , you ,  
you and ME.
