"We Made It This Far"

Visit "[We Made It This Far](#)" on MotoLyrics.com

Did I really take the best part of you or is it something that we're just going through or do we sit back in let love grow or do we just let... let it go. Time teaches us so many things and I've learned a lot from what was happening and all I know is that I made it thorough to be able to tell you I still love you.

Chours)

We made it this far I don't want to be apart not a single day without you without you what would I do, We made it this far I don't want to be apart lets go back in time when it all was just fine.

Verse 2)

The road is a journey ain't meant to be traveled alone you mean the world to me you were all I know I never have to worry about the present day cause when you're there I know that everything everything will be ok. Time teaches us so many things and I've learned a lot from what was happening and all I know is that I made it thorough to be able to tell you I still love you.

Chours)

We made it this far I don't want to be apart not a single day without you without you what would I do, We made it this far I don't want to be apart lets go back in time when it all was just fine.

Verse 3)

We got to find a way no matter how thick it gets because it hasn't been the best but it hasn't been the worst and I'm afraid the worst isn't over yet but we can make it through because I believe in you no matter what we go through don't say that we are threw.

Chours 2x)

We made it this far I don't want to be apart not a single

day without you without you what would I do, We made
it this far I don't want to be apart lets go back in time
when it all was just fine.
