

Rose Cousins "Dance If You Want To"

Visit "[Dance If You Want To](#)" on MotoLyrics.com

Dance if you want to and I'll sit and watch you
Show me the steps that you know
Jump high and swing low and dance all night

Drive if you want to and I'll sit beside you
When there's a road to choose from
We'll choose the right one and we'll drive all night

And play if you want to and I'll listen when you do
And when you sing a tune, I'll sing along with you
And we'll play all night

Cry if you want to; at some point we all do
But at least you know that with each cry, you grow
So cry all night

And love if you want to, 'cause so many love you
Share your heart with the world
Let your story unfurl and the love take flight

And dance if you want to and I'll sit and watch you
Show me the steps that you know
Jump high and swing low and dance all night
Show me the steps that you know
Jump high, swing low and dance all night
