It's so amazing when you stop thinking
And feel the ground pushing up on you
It's so amazing when you start seeing
Everything how it sees you

And I could say anything to you right now
But all I have to say is this
It's so amazing that you and I experience this

It's so amazing when you start dancing
And feel the music move inside of you
It's so amazing when you stop laughing
And see that everyone was laughing with you

And I could say anything to you right now
But all I have to say is this
It's so amazing that you and I experience this

Tilt your head up to the skies
Take me to your paradise
And I will ask you just one time
Please don't ever close these eyes
To paradise

It's so amazing when you stop thinking and
feel the ground pushing up on you

And I could say anything to you right now
But all I have to say is this
It's so amazing that you and I experience this
Experience this
