You can help him as you help me  
Even when you think that your target is far  
When you look at the horizon  
Listen to your heart  
And walk through awakenings  
Listen to your heart  
And fight!  
Revolution:  
The place where the hearts fight  
Revolution:  
The time when the eyes talk  
Revolution:  
Embodiment of freedom flowing in your soul  
Why are you running away  
When it's almost achieved  
Trust yourself, once in your life  
"It's the mainpoint!"  
Go and tell that you love  
Don't hide your tears  
Because nothing is lost  
Listen to your heart  
And walk through awakenings  
Listen to your heart  
And fight!  
Revolution:  
The place where the hearts fight  
Revolution:  
The time when the eyes talk  
Revolution:  
Embodiment of freedom flowing in your soul
