We are from a black hole
Deep in the future
Maybe in a day
Or maybe 100 years

We come from a black hole
(In the future)
We are more advanced than you
(From a black hole)

We are from a black hole
Deep in the future
From France in a day
Or maybe 100 years

We come from a black hole
(In the future)
We are more advanced than you
(From a black hole)

We come from a black hole
(In the future)
We are more advanced than you
(From a black hole)
