Through fire and water  
Through ground and sky  
Always ready to fight  
Always ready to die  
Fast as the lightning  
Dangerous as the shark  
He is always near  
Don't know what is fear

REF x2

When you see the jungle burning  
And the sky is turning red  
Know the secret of his art  
He will come to bang your head

Hear the roar of the engines  
Of the angry machines  
Marching through the battlefields  
Brave company of marines  
You won't stay alive  
And you will scream in the pain  
He will come to give you death  
Commando is his name
