Yeah.

You Ready?

[Verse 1]

Betcha never seen

A girl fly as me

We be in the club

And you know we VIP

Cause tonight is the night

I let my hair down

DJ turn it up

I wanna get a sound

Young boys standing, watching

All the girls standing, hating

Better handcuff your man

Girl cause you know he'll be taken

But we don't want no drama

Make it hot like a sauna

400 degrees

She bring 'em straight to the knees cause

[Chorus]

I can make the boys over,
overdose

Too much for the boys make 'em
overdose

I can make the boys over,
overdose

Too much for the boys make 'em
oh,oh,oh overdose.

[Verse 2]

And they can't take it no more they just wanna touch
(wanna touch)

But baby there's no

touchy touch,

you see is what you get right here on the floor.

And i know your girls watching , and i know that she

hating, and you a big boy you make your own
decisions. And if you want me baby, you can have me
baby
just let me know if you can handle,handle this cause

[Chorus]
I can make the boys over,overdose
Too much for the boys make 'em

I can make the boys over,overdose
Too much for the boys make 'em
