[Verse One: Nas]
My enemies want sorta the same respect I was born
with
Godson, tatted on my chest it's permanent
The rap Albert Anastasia; you cowards
Y'all want the crown from the black power man of Asia
Snap out your dreams and prayers of takin a king's
paper
Ask another rapper how it feels to lose his whole
gangsta
(How it feel?) Youse a no namesta - ya little mans is no
threat
You make me upset I might stank ya (blastin)
Inc. is the Murdah, Ill Will merger let my cash
make sex with yo' cash, it can't hurt us
Phones ringing off the hook, Bush and Bloomberg
callin me constant
Streets wanna know the cause of that gossip
Nas is lord of the projects 'til the coffins drop
in the ocean like a Amistad slave overboat when
It's a new day ya should be scared I'm back with Stoute
Southside, Queensbridge, the hood's in here

[Chorus: Ashanti] + (Nas)
There's no me (uh talk to me) without you (There's no
me y'all)
I can't be (I.N.C.) without you (Ill Will now)
Don't you know that I will never leave (talk to me now)
Leave you (It's no me y'all)
