Verse 1

This one goes out to the proud dads
And the full time working moms
With the business shirt that she wore to work
On the day she lost her job
To the man unknown that went back home
And found his place was robbed
To the one we know supposed to show
But didn't have a date to prom
It's on tonight, tonight we party
Tonight we in the moment
Don't gotta show up, don't go nowhere
Cause the parties where your home is
For your boyfriends, and your girlfriends
That text you where you going?
Respond with LMFAO
You sexy and you know it, so show it
Cause you been in the dark, but now you shine
You done seen to much, but now you blind
You gotta follow my lead, whatever I assign
I put a spell on you, so now you mine
Hook
I'm getting inside of your brain
I'm controlling your mind
I command you
I demand you
To do whatever I assign
And tonight you will dance, dance, dance
(Repeat 3x)
Tonight we got to
Turn the party up, make the bass thump
Shake the club up, make the place jump
Do it all night until the A.M
They will never stop until I make them, now dance

Verse 2

Go shawty we like to party, Beyonce Carter
And we do all night until the sky turn blue like, Beyonce
Daughter
No time to be lazy here
No but no maybe here
So forget what the people say, you were born this way

Like the lady with the crazy hair
You to hot on the coldest day
All your problems throw away
Don't know you better ask Rihanna
You can find love in a hopeless place
I'll be your Calvin Harris
I'll be your flight to Paris
Some people like to stare it's
Just in there nature, probably cause
Cause you been in the dark, but now you shine
You done seen to much, but now you blind
You gotta follow my lead, whatever I assign
I put a spell on you, so now you mine
Hook
I'm getting inside of your brain
I'm controlling your mind
I command you
I demand you
To do whatever I assign
And tonight you will dance, dance, dance
(Repeat 3x)
Tonight we got to
Turn the party up, make the bass thump
Shake the club up, make the place jump
Do it all night until the A.M
They will never stop until I make them, I'm getting
Inside of your brain
I'm controlling your mind
I command you
I demand you
To do whatever I assign
And tonight you will dance, dance, dance
(Repeat 7x)
