You make me dead inside I see no guiding light  
I see no purpose in forgiving and trying to fix it  
I want no more confusion don't want this endless war  
This is the end of the world that we created from nothing

X4

You make me dead inside  
I see no purpose in forgiving and trying to fix it  
I want no more... x2

You make me dead inside  
I see no purpose in forgiving...  
I see no purpose, I see no purpose in forgiving

You make me dead inside

You make me dead inside I see no guiding light  
I see no purpose in forgiving and trying to fix it  
I want no more confusion don't want this endless war  
This is the end of the world that we created from nothing

X5

You make me dead inside I see no guiding light  
I see no purpose in forgiving and trying to fix it
