Come my love take my frozen hand  
And me head in your arms  
High so high I must climb  
My soul flew ahead

I'll never know if I don't go  
and see what's on the other side  
I'll never stop thinking of you  
I've got you on my mind

Touch my hair like a spider  
Make me forget what I am  
Touch my skin with your breasts  
They don't know me at all like you do

I'll never know if I don't go  
and see what's on the other side  
I'll never stop thinking of you  
I've got you on my mind

I'm fading out
