A sense of wonder,
finding what is real
What went wrong here? You taught me how to feel
we're along in the memories of how we used to be
it's our time to be honest,
our time to be free.

Your still breathing, show your eyes to me
Your hearts still beating
(X2) show your eyes

Frozen under at times we panomine
what went wrong here? You taught me how to shine
it's our time to be honest, our time to be free.

Your still breathing, show your eyes to me
Your hearts still beating
X2 show your eyes.

We're alone here in the memories of how we used to be
(X2) Our time to be free
(whoa).
