"Demonstrate"

Visit "[Demonstrate](#)" on MotoLyrics.com

I live in this fantasy where everything is amplified
Senses hiding in a flash and everything just comes
alive
This pressure all inside of me is sexual anxiety
Baby there's a lot of freaky shit running my mind that
I can't say, but I know I can demonstrate
And I can let my body explain
I know I can demonstrate
So I'ma make it simple and plain
You just need to come over
I can just demonstrate

I'm arrested by the night and
Only you can set me free
Guilty but I'm not ashamed, I'm exactly where I wanted
to be (year)
I leave the door, open wide in hopes that you will sneak
inside

Baby there's a lot of freaky shit running my mind that
I can't say, but I know I can demonstrate
And I can let my body explain
I know I can demonstrate
So I'ma make it simple and plain
You just need to come over (come over)
I can just demonstrate

I'm thinking come over, come over, come over
I'm thinking come over, come over
I'm thinking Baby there's a lot of freaky shit running my
mind that
I can't say, but I know I can demonstrate (I Know I can)
And I can let my body explain
I know I can demonstrate
So I'ma make it simple and plain
Come over So I can demonstrate
Come over (come over)
