Verse 2 [Big Moe]

As I sank back to the days of struggle
Life has been tussle but I always had a hussle
Sippin gallons of tussen Ain't no time for discussion

All these hataz mad cause they gals be lustin'
And my gator on buttons popped up blowing
doz{doza}
Foe foe in my lap make her drop and hit the floor
B-i-g- M-o-e feel me
Heavyweighting and regulating all through South c
Boujer to concrete brang us the noochie
Everybody knew me as I wrecked on screw beats ohh

We came to far to set back
Get back I pull out my nine and wet back

[Chorus]

Verse 3 [H.A.W.K.]

Back Back playa raise up off me
Shit that a stick is hotter than a cup of coffee
Your mistakes a cost me when you messing with my
stash
Sixteen[16] get crush if we're on the same track
How you feel about that it's not fiction or fact
When I add or subtract comes back plus tax
Your minor setback leads to major combat
Improper contact leads to mortal combat
Hole in your starter hat and your skull gets cracked
Now I walked all on you like you're a doormat
Two hataz I break half squash yall chit chat
If your patna is real he'll never turn his back
I know this for a format add needs to teachings
Mess with my stash and you gon be a quadruple
preaching
You better believe it don't mess with my fade
Or you gon to feel the wrath of the H.A.W.K.

[Chorus] 3x
