"Christmas Without You"

Visit "[Christmas Without You](#)" on [MotoLyrics.com](#)

I need you, I love you,
Every year I think about a Christmas,
Christmas spent with you.
I need you oh I'm trying,
I can't live without you darling,
It's Christmas, Christmas without you...

I feel so empty without you to hold me,
I feel so lonely I could cry.
If you could see me here alone still waiting,
You'd know I love you and know why.

I need you, I love you,
Every year I think about a Christmas
Christmas spent with you.
I need you oh I'm trying,
I can't live without you darling,
It's Christmas, Christmas without you.

I can't help dreaming that you'll try to find me,
I'm always thinking about you.
And when I wake up and you're here beside me,
Then I will know that dreams come true.
