"Unblessed Souls"

I was born again to become my own god
Free spirit with iron hearts: privilege of the wiser
Ones
The path of knowledge and might we walk
Nobility has come to us and the laws of nature we hail

Only our will decide... through us the divine Word is
Raped
The so called chosen ones can't annihilate the beast
Inside us

Behold the archetype of the Adversary
The one that those from the desert hates since
thousand
Years
If their darkness and evil mean our true instincts and
Values
Their light is nothing but our own extermination

Only our will decide... through us the divine Word is
Raped
The so called chosen ones can't annihilate the beast
Inside us

Forever Adversary...
