This is hard for me to do
But I can't take it any longer
I'm sick of everyone's shit
This isn't gonna make me stronger
Why is everyone starring?
Why can't you just leave me alone?
Get the fuck away from me
I can do this on my own

(Chorus)

I hate you, why can't you care? (this is so hard)
I feel you, everywhere (it's not fair)
I hate the way that you left me here
With a broken heart and eyes full of tears

The rage builds inside me
Everytime I think of you
I want someone to hide me
Not one who can see right through
All these lies that I built up
Came tumbling down
I can't seem to keep my feet on the ground
Now that you see the real me
Just know I'm not who I want to be

(Chorus)

I feel like I'm dead
Get out of my head
I heard what you said
I just don't seem to care

I don't care
