Late night, glowing lights  
A life set from the mess  
All these worn-out excuses  
Taking time to resignate  
Turning light into day  
I'm dreaming away

#### CHORUS:

I want so much more  
I'm reaching from the shore  
No time to rewind  
As long as I'll catch my breath

Cold night, fading lights  
Some time sat down to rest  
All this growing desire  
Sun and water  
Getting late  
The face I hoped for  
Fate went away  
And it's over now

#### CHORUS

Leaving everything  
Running down the tracks  
Hoping anything  
Melts down these cracks  
Running away  
I won't be lost  
Running away with you

#### CHORUS X 2

(I won't be lost)  
(I won't be lost)

I won't be lost
