She came up to me with no patience
Everything I once had
Was something she had too
And the face on her wall speaks of
My name as if I'm commong ground
For them too

CHORUS:

I don't know what tomorrow brings
Just like I don't know all these things
And so I go
It's all I know

He listened closely, I unravelled
Everything felt
Through the last few days
Then the silence came and killed me
Took my breath away
And the feeling strays

BRIDGE:

Slip into my pocket
I'll carry thee far
And I will keep you
Close to my heart

CHORUS x 2

It's all I know
It's all I know
