### "Monday Song"

Visit "[Monday Song](#)" on MotoLyrics.com

It's just been another day of this way  
It's just been another day of this way

Early morning  
wonder what the day has planed for me  
what will it be?  
Hope for something new  
to pull me through to set me free

It's just been another day of this way,  
It's just been another day of this way

Late afternoon  
just been going through the same old same  
by any name  
Searching for a sign  
This is the time to stake my claim

It's just been another day of this way,  
It's just been another day of this way

Now the day's gone  
I see clearer now the path I'm on  
to witch I'm drawn

It's just been another day of this way,  
It's just been another day of this way

It's just been another day of this way,  
It's just been another day of this way

It's just been another day of this way,  
It's just been another day of this way
