You put on your silver shoes and watch the house  
collapse,

You put on your silver shoes and watch the house  
collapse.

Tear down your sugar walls,

It's not like I've got anyone to tell,

You put on your silver shoes and watch the house  
collapse.

Not enough night,

Joy is dark music,

Not enough night,

Joy is dark music,

Not enough night,

Joy is dark music,

Not enough night,

Joy is dark music,

Not enough night,

Joy is dark music

Not enough night,

Joy is dark music,

Not enough night,

Joy is dark music,

Not enough night,

Not enough life.

You came here so you may as well,

Tear down your sugar walls,

It's not like I've anyone to tell.

They don't know anything,

It's not about them knowing anything,

Put on your silver shoes and watch the house collapse.
