(pack)

Where do you think you're goin'?
Dressin' like some evening tramp?
What do you think you're doin'?
Well, you got them talkin' behind my back

It must be something I can't relate
It's enough to drive a man from his mind
So get back home before it's too late
How could you up and just walk out of my life?

I can't let a woman like you get to my head
I can't let a woman like you get to my head

What do you think you're doin' ?
Well I told you not to leave anymore
Where do you think you're going?
Come on, get your fingers off of that door

It must be something I can't relate
It's enough to drive a man from his mind
So get back home before it's too late
How could you up and just walk out of my life?

I can't let a woman like you get to my head
I can't let a woman like you get to my head

I've waited all my life
For someone like you
Waited all my life
Is there something that I could do...

I can't let a woman like you get to my head
I can't let a woman like you get to my head

Goo, goo goo goo.
