Lost in a trance I just lose track of the days,  
Dreaming and sketching out all the right words to say  
Then suddenly the moon comes out I find myself again  
It's a dawning, (it's a dawning)

And I'm movin on  
And I'm movin on

Take me up higher than I've ever been before  
Take me up higher (2x)

Running from storm clouds I'm searching for the sun  
Desperately seeking advice FROM anyone  
An old man grabs me by the arm and points me too the  
sky  
Can you see it?  
Can you feel it?

And I'm movin on  
And I'm movin on

Take me up higher than I've ever been before  
Take me up higher (2x)
