The man who slaughtered baby jane  
is sitting there in front of you  
fear him  
he's a horror movie nightmare

Doctors said he's insane  
cos he had a hard childhood  
he was ravished when a boy  
but who cares

The man who slaughtered baby jane  
severed her in little pieces  
cut the flesh  
with some canadian chainsaw

Packed her in cardboard boxes  
and sent them to family and friends  
no one knows where  
went some of these boxes

The man who slaughtered baby jane  
died tonight by justice's hands  
someone said he slaughtered her  
alive
