It's not only my mind that she can read
If it's getting cold
And I am getting weak

If it's gonna be a stormy day

She will dancing with her snow shoes on.
Dancing with her snow shoes on
Until the summer comes

Solemnly she's walking down our street
It is then I realize that she is all I need

If it's gonna be an awful day
I know that we can make it
Anyway

If she's dancing with her snow shoes on
Dancing with her snow shoes on
Until the summer comes
