Surgical procedure  
Giving the cure

Manipulating  
Isolating  
Destroying  
Abandoning

The poor, the handicapped  
The different, the original

Are manipulated,  
Isolated,  
Destroyed,  
And abandoned

The knife unsharpens itself  
Sawing the veins of its own  
Society for everyone of us?  
We on the behalf of the society?

No!

Survive, win!  
With dirty tricks

Manipulate!  
Isolate!  
Destroy!  
Abandon!
