Loser friendly god

I could not care less about, I?m not interested at all
In your weak devotion towards the loser friendly god

There must be a connection:
Drop down your IQ to rise up your belief
But do not come to me and glorify your victory
Evil in people does not cease with your relief!

Healed by jesus after using all of the drugs in the
world?
Saved by god before dying in alcohol?

There must be a connection:
Drop down your IQ to rise up your belief
But do not come to me and glorify your victory
Evil in people does not cease with your relief!

How to explain all of the losers
Among the true believers
Ignorance must be bliss
Leading into severe stupidity!

There must be a connection:
Drop down your IQ to rise up your belief
But do not come to me and glorify your victory
Evil in people does not cease with your relief!

Your belief

Your relief
