[M: Q, ROTTEN SOUND]

[L: G]

Censorship denied
Government not heard

There's no more lies
Only the truth remains

Now we can see the reality
We can spread it around

There's no more lies
To spread around
Only the truth remains
Straight in your face

The day of purity must be achieved
Now we all must suffocate in the loads of shit

The day of purity must be achieved
Now we all must suffocate in the loads of shit

Spreading like a disease
Opening the eyes of the slaves

There's no more lies
To spread around
Only the truth remains
Straight in your face
