

Rotten Sound "Units"

Visit "[Units](#)" on MotoLyrics.com

The company of hatred exists to distrust us by
surveillance of our deeds and what we believe in.
The departments run these instructions.
The unit of propaganda hides the doubts and creates
the truth; there is no freedom to think.
Division of slavery defines the way to serve.
The ministry of demolition and the digital war erases
people and melts our feeble minds.
Our precious company is the place where we all live,
the departments, the instructions, parts of the
internations that oppress all of us.
The company of hatred exists to distrust us by
surveillance of our deeds and what we believe in.
The ministry of demolition and the digital war erases
people and melts our feeble minds.
