They say I'm young  
But my purpose is the inspiration of a nation innovation  
Til I change the talk into a conversation  
I'm like a doctor and my patients are anxiously waiting  
Healing all the hating  
That faking in the paper chasin  
It's hard to live up to these expectations that I'm facing  
And gave the admiration of an older generation  
That's why I'm pacing back and forth contemplating  
Meditating how to use what I've been taught as a positive force

Oh! (Oh!)  
This is who I am  
I wish you'd understand  
It's time to set me free  
My Guardian Angel  
No! (No!)  
No matter what I do  
I'm still a part of you  
I hope you'll always be  
My Guardian Angel

I wanna be the greatest in the world  
Not for the money or the fame or the girls  
Not for the car keys, jetskis or the vacation to the West Indies  
But simply 'cuz I love it  
When I write I'm like a puppeteer  
Pullin my strings, tell 'em all of these things  
And the honesty makes me spread my wings  
Your calling me out was out of your mind  
Send that thought back down your spine  
I'm on the ground, it's all on the line  
Both sides say both ways at the same time  
Most days I can't wait to rhyme  
Express my stress, elevate and shine

Progress, regress, each step's climbed  
So I take that test and I testify

Oh! (Oh!)  
This is who I am  
I wish you'd understand  
It's time to set me free  
My Guardian Angel  
No! (No!)  
No matter what I do  
I'm still a part of you  
I hope you'll always be  
My Guardian Angel

I feel so misunderstood  
'Cuz my intentions were good  
If you could only see that poetry can hide in the hood  
The passion in philosophy of possibilities  
Every dream is in my reach  
I'll find my freedom in this beat  
Follow me now, it's a whole new ground  
Swallow your pride I'll make you proud  
All of my life I've lived out loud  
We just preached to different crowds

Oh! (Oh!)  
This is who I am  
I wish you'd understand  
It's time to set me free  
My Guardian Angel  
No! (No!)  
No matter what I do  
I'm still a part of you  
I hope you'll always be  
My Guardian Angel
