"The Sign Of Evil Existance"

Oh south spirit removes the sea wind
Recall the first time flame
Awake the beast under the show
In three shades
The sign of evil existance
Engraved in rain
Above the circle where tyrant dwell

Summon glohithia
Appear in the snake shape
Bring down upon me
For last time all forests

The sign of evil existance
In the four points of horizons
The secret buried under smoky land
It'll take ages and ages

Come back
The wind is here now
The sea is divided
The flame reburns inside me
The beast return in the snow land
