

## **Rotting Christ** **"Thou Art Blind"**

Visit "[Thou Art Blind](#)" on [MotoLyrics.com](http://MotoLyrics.com)

When you die I hear my name hear my name hear my name

Try to complete myself again in your eyes in your gold  
Everything embraces decay black as sea fool as I  
Nothing can reduce the painfull of death death as black  
When you die, I hear my name cold blood

Try to add and to divide in your eyes black or gold  
Everything to learn you hide rubypainruby bride

Try to count how many sins black old seablack or cold  
Since I feel good I am clean bloody cold earth comes white  
Nothing can reduce the painfull of death death as black  
When you die, I hear my name cold blood

Be the law art thou as pride / law of blind / law of blind  
Truth is what for someone died / blood / crawled

Be the form that none will bind  
The whole world will be your mind  
Keep your search and you will find  
To se all or to be blind  
Learn to climb the holy stars  
Learn to walk the universe  
Learn to bless and to reverse  
Be the mouth of every curse...flood...fold

Try to complete myself again in your eyes in your gold  
Everything embraces decay black as sea fool as I  
Nothing can reduce the painfull of death death as black  
When you die, I hear my name cold blood

Be the law art thou as pride
