Intro:

What should I do

Should I just write you

Or tell you how I feel

Because my love is for real

What should I do what should I say

Hmm I know a way

When I meet her I'll greet her like this

Verse One: (girl's voice in parenthesis)

Hello (hello) how do you do (well I'm fine)

You busy (no why?) 'cause there's something on my
mind

You know that we've been knowing each other for a
long time

And I came to the conclusion that I want you to be mine

(Why?) why? (Yes why?) why not

Don't you see that's it quite obvious I care for you a lot

(So do I) so you do

So what's the problem dear (Kwame I don't trust you)

Chorus:

Hai Luv

Can, can, can I have a word with you

I'd like to tell you, tell you all of the things I'm going through

My nights been so long, so long, as I watch each hour go by

And I'm standing here, hoping and praying that you'll let me be your guy

Verse Two:

(Now out of all of the girls you've had how do I know that I'm not next?)

'Cause all they could do for me, is gimme some quick, well umm (oh)

Just listen OK?

(OK, OK, OK)

It's not an egotistical thing, I'd give my heart to you

For yours to keep, if you wanted to

'Cause you're the only one, the only one made for me

Love had me so blind I find that I can't see

Pain heartache

I just want to partake in acts of love

(singing) We are breaking away from pain here's joy

Together we're man and woman, not girl and boy

Taste sweet chocolate like an Almond Joy

Play with each other like a brand new toy, yoy, yoy

Chorus

With this cold hear, you are dearly, yeah ya know?

I wish you were my lover

You act so undercover

I went through trial my whole life long

Be it right or be it wrong (be it wrong)

I only want to make you crazy

Girl don't front don't be so lazy

Just want your mind don't want your money

These two words they may sound funny

But oh ooh oh you're my sweet thang

You're my everythang (2X)

Outro:

Tic-toc you don't stop

Young ladies, of the '80s (you mean '90s) go crazy
