"Insania"

Here's to you, my fatherland
Silent scream - my only friend
Traces - disillusion - down
Masquerader - sailor - clown
I was born without a home
Blue wherever I may roam
Seems like finally I would find
Everlasting peace of mind
- Insania

All the laughter - all the pain
All the troubles - all the rain
All the fun we had - INSANIA
All the rumors - all the heat
All the prayers to the backbeat
All the things we said - INSANIA - gone too far...

In my heart - in my soul
I take a dice and let it roll
There's a place for the last and the only ones
There's place for disgrace where the braindeer runs
To the pole.
All my life I tried to hide
Where the rising shaddows ride
Teardrops from a spaceship flown
Silent waters made of stone - Insania...
