"Life Goes On"

Visit "[Life Goes On](#)" on MotoLyrics.com

You got fallen reasons in one blink
You got people always tryin' to think
You got sisters in a traffic jam
My body's like a tram
You got trouble melted by the heat
Liberty on dead end street
You got an iron lion sighin' when you're cryin'

And life goes on
On and on - tomorrow I'll be gone
But life goes on

So you were born where the black cats stray
Back on your feet - that's the price you got to pay
For daylight dreams in the midnight hour
Intelligence is power!

To find a rose way down below
Scared to death where egos grow
Whenever a wish cuts like a knife
Then life goes on
On and on - tomorrow I'll be gone
But life goes on

In this world of my reaction
I can't find a reason why
In this world of disattraction
May the force be with your lie forever
Me, myself and I belong together
And life goes on
On and on - tomorrow I'll be gone
But life goes on
