[Music : Doernberg, Wunderlich / Lyrics : Doernberg]

Maria called herself an actress.  
She was waiting by the phone.  
She was young and pretty but it never rang  
So she bought some silicone.  
And suddenly she became a star  
And she never did sleep alone.  
She got rich and famous and all because  
Two little pieces of silicone

So all you unknown ladies - in case you haven't known  
Just simply save your money up to buy some silicone !

"Thank you for calling the escape-reality-hotline.  
Please enter your personal I.D.-code now - please enter  
your personal I.D.-code now....."

Overkill - pay the bill - the writing's on the wall !  
Ride on - long gone - heading for the fall !  
Hold the line - the neon sign says : I don't care too  
much !  
I don't know if you've noticed it - but you've got that  
special touch !"

On the road to infinity - the road to the stars.  
We look oh so cool - just like brand new used cars.  
"Tomorrow's sold out !" says the dog to his bone  
And all because a little piece of .....

Silicone under the rainbow ( "Zero - Zero - One" )  
Pretty soon we'll be flyin' away ( "One - Zero" )  
It's obvious you see -we've found the magic key  
To the gods of the apemen we pray.  
( "thank you for calling the escape-reality-hotline.")  
Silicone - where did our brains go ?  
I don't miss mine but got yours on the phone !  
So in case you may need it - someone else tries to feed  
it  
With the essence of bytes - Silicone !

"Thank you for calling the escape-reality-hotline.  
If you dial 5-0-6 , your call will soon be transferred to  
the brain-exchangement-section.  
If you dial 6-8-9 an operator will speak to you in person.  
Be well, citizen, your future is now.  
Be well, citizen, your future is now.  
Your future is now - your future is now....."

Technology - follow me - the factory of time.  
Amateur - needs a cure - 'cause thinking is a crime.  
Big Brother, too - is watching you - Metropolis by night.  
The wicked ways of modern days make us dancin' side  
by side !

On the road to infinity .....  
Silicone .....

"Your future is now !"
