He was a money - hungry - power - thirsty rich man's
kind

Taught to praise the business
And that's all he ever did

Daytime - nighttime - always the same
One day he realised
Something's missing in his game

Well - money makes the world go 'round
To have or have not - holy amount
But there's one thing you can't buy at all
Whoever you are - without it you're small

Sentimental trust - sets hearts on fire
Sentimental trust - can't be drowned on greed
Sentimental trust - our dream's desire
Sentimental trust - tames cold and heat

Another lad was just a shy shy boy
he wasn't too attractive
And always without joy

So he went to a whore to learn what loves means
But she couldn't give emotions
She only sold what's in her jeans

Well - money makes the world go 'round
To have or have not - holy amount

But sentimental trust - sets hearts on fire
Sentimental trust - can't be drowned in greed
Sentimental trust - our dream's desire
Sentimental trust - tames cold and heat
