Pin on a flower, dream a shower's on the way  
I killed that poor girl while she was waiting  
No way she could understand why

It's what I feel when the pain in my skin burns, peel me  
It's what I know when the pain in my head turns feel me

Shake x4

Everything's in its own perfect place  
Time to put on that fake plastic face  
It's the next page on my killing spree

It's what I feel when the pain in my skin burns, peel me  
It's what I know when the pain in my head turns feel me

Shake x4

I'm plotting, I'm scheming  
I'm breaking, your bleeding x2

I'm I am breaking, I'm am shaking

Shake x4
