"Loving You"

Visit "[Loving You](#)" on MotoLyrics.com

I am loving you as the earth spins around the sun without end
I am loving you as the day turns into night again

I will always love you till the sun begins to fail
to the breaking of the waves with seas
I am loving you you're the light of all my days, my heart

I will always love you. I know you understand me
I will always love you

You never fail

I am loving you as the moon begins to rise in my heart
I am loving you as we meet within my dreams, again

I will always love you till the sun begins to fail,
to the breaking of the waves with seas
I'm loving you as you hold me in the night, my heart

I will always love you. I know you understand me
I will always love you
I will always love you. I know you understand me
I will always love you

I am loving you as the earth spins around the sun without end
I am loving you as the day turns into night again

I will always love you till the sun begins to fail
to the breaking of the waves with seas
I'm loving you, you're the light of all my days
