Every way that I tried and turned in
And although I call it something else
I am the fool sad, the one under your spell
And I guess for a single moment
I know your words were full of air
But I turned a blind eye and hope you'd grow to care.

Oh oh, and here we go again
Just a little boy in a big man's frame
Who's got me falling but I 'll never fall again

No oh oh
Is this what you do to me?
Feeding me with all the lies you told

No oh oh
Is this something new to me?
I'll see when the page unfolds
And you will never know

I should have known from the sound of your voice
That all the words were just pretty lies
But I soon came to see the truth over time

Ohh but you just go your way
When I am left here hoping night and day
Always dreaming to all we could have been

No oh oh
Is this what you do to me?
Feeding me with all the lies you told

No oh oh
Is this something new to me?
I'll see when the page unfolds
And you will never know

Carry on
You will feel the same one day
Carry on
And it'll hit you in the hardest way

And when it gets you
I will be long gone

No oh oh
Is this what you do to me?
Feeding me with all the lies you told

No oh oh
Is this something new to me?
I'll see when the page unfolds
And you will never know
And you will never know
