Racing day, it's racing day
Racing day, it's racing day
It's not picture-tracing day
Today's the day we race

We'll run somewhere that's not right here
And while we do the crowd will cheer
Through the forest over the snows
Across the ocean and then who knows

Whoever is the first around
Will get to make that victory sound
Dunt-da-daa, is what they'll say
At the end of racing day

Racing day, it's racing day
Racing day, it's racing day
It's not doily lacing day
Today's the day we race

A long, long, long, long way we've come
To get back where we started from
We raced real hard but now it's time
To break that tape and cross that line

Racing day, it's racing day
Racing day, it's racing day
It's not self-effacing day
Today's the day we race
Today's the day we race
Today's the day we race
