Your love is colder than a foggy river flowing o'er a  
heart of stone  
You left me stranded on this foggy river drifting  
helpless and alone  
Can't escape this broken heart of mine there's no  
freedom anymore  
Oh Heaven, help me on this foggy river help me find  
the distant shore

There's no tomorrow on this foggy river only memories  
linger on  
A mist of sorrow chills this foggy river everything I love  
is gone  
Always knew some day you'd let me down, I've got  
troubles on my mind  
Guess, I'm doomed to sail this foggy river till I leave  
your love behind
