Low and lonely sad and blue
Thinking only of little you
Always trying to keep from crying
I'm low and lonely over you

Do you miss me? Say you do
Tell me darlin', tell me true
Do you yearn dear will you return dear?
I'm low and lonely over you

Low and lonely, weary, too
You're the only, true love I knew
Don't be long, dear, you know it's wrong, dear
I'm low and lonely over you

Low and lonely sad and blue
Thinking only of little you
Always trying to keep from crying
I'm low and lonely over you
